

Tenure-Track Faculty Position in Materials Engineering

Job Description

Materials Engineering at Auburn University seeks an outstanding individual for a tenure track faculty position in the Samuel Ginn College of Engineering. Candidates will be considered at the assistant and associate, and full professor levels. Exceptional candidates with interests in research and teaching in all areas of materials science and engineering will be considered.

The successful candidate will be expected to establish a strong individual research program in one of the above areas. Associate or full level applicants must demonstrate an active nationally and internationally recognized program. The candidate will be expected to participate in large-scale, multidisciplinary team efforts in one of the above areas. The appointee will teach both undergraduate and graduate courses in materials engineering and develop innovative, cross-disciplinary instructional activities.

Auburn University, an R1 land-grant institution with 31,000 students is located in the east Alabama city of Auburn, and has consistently been ranked by US News and World Report as one of the top 50 public universities in the United States. The picturesque main campus covers 1,875 acres and includes the entire southwest quadrant of the city of Auburn.

Minimum Qualifications

The successful candidate must be professionally trained in materials science and engineering or a close field and hold a Ph.D. from an accredited institution at the time of employment. The candidate selected for this position must meet eligibility requirements to work in the United States at the time of employment, and the candidate must continue working legally for the proposed term of employment.

Special Instruction to Applicants

Application submission should include a cover letter, complete curriculum vitae, statement of research and/or goals, statement of teaching philosophy, statement on diversity, equity and inclusion, transcripts, and the names and contact information of at least three references. In the statement of diversity, equity and inclusion, please describe how your experience and/or potential contributions in research, teaching, and service will advance our mission of creating a more diverse, equitable and inclusive workplace.

The intended start date is January 1, 2024. A review of applications will begin on July 15, 2023 and continue until the position is filled. A link to the posting and application can be found at <https://www.auemployment.com/postings/38517>.

EEO Statement

Auburn University is an Affirmative Action/Equal Opportunity Employer. It is our policy to provide equal employment opportunities for all individuals without regard to race, sex, religion, color, national origin, age, disability, protected veteran status, genetic information, or any other classification protected by applicable law.
